Elec50 – electric driven & speed regulated

CompAir's range of portable compressors have proven their reliability and efficiency in the toughest of environments. The new **Elec50** compressors combine these characteristics with the benefits of an emission-free, extremely quiet and economic electric drive:

The **Elec50** is ideal for use in environmental or noise protection zones, e.g. in tunnels, narrow excavations and inside buildings. Wherever a power supply is available, the compressor can be connected on the public power grid.

Compared to a diesel equivalent, the **Elec50** offers potential **savings of 46% in energy costs** and **36% in maintenance and servicing costs**.
